

Adobe Acrobat Pro DC 2019 Installation-Guide

IMPORTANT NOTES

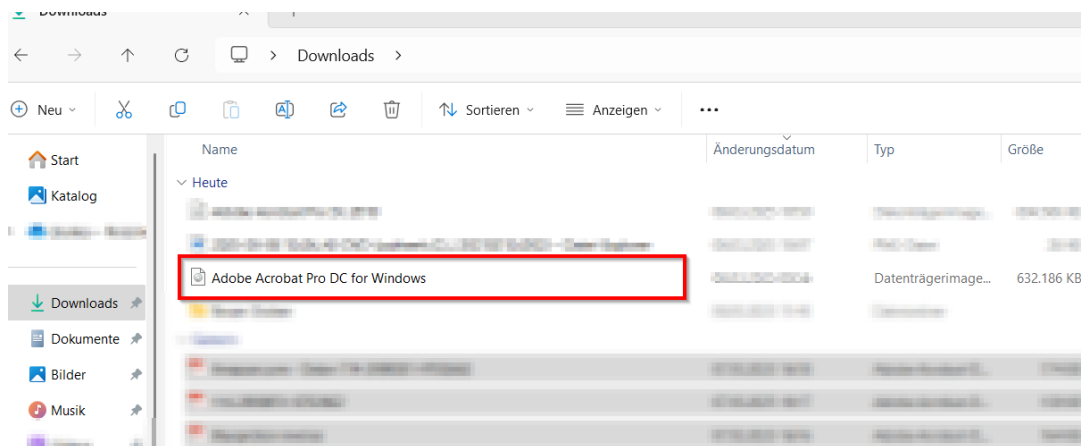

If you encounter any issues during installation or activation, please contact our customer support.

First, remove all existing Adobe versions from your PC to avoid installation problems. We recommend using the official [Adobe uninstallation tool](#) for this.

Make sure that all Adobe files are completely removed, as the installation may fail otherwise!

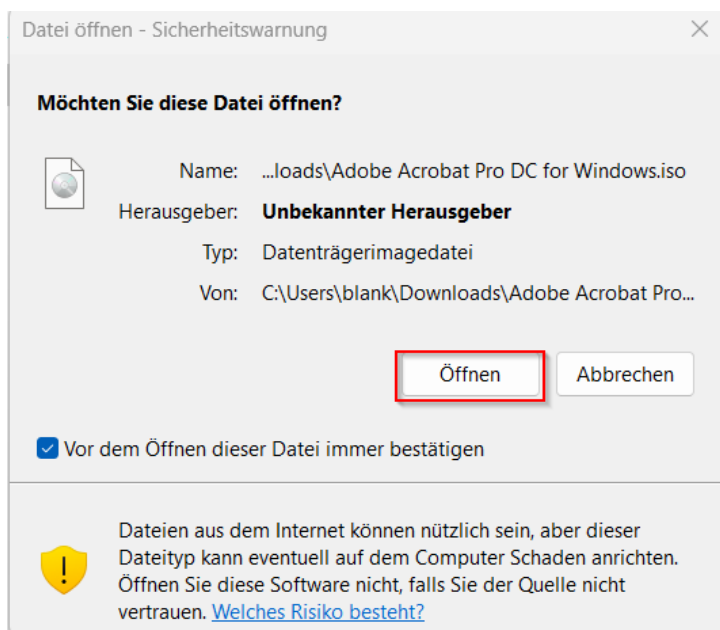

Step 1

Download the purchased software using the download link you received from us. You can find this link in your email inbox. Then, run the installation file.

Step 2

In the next step, please click on **Open**.
